Appendix 1 – Conflict of Interest

1. Definition of Conflict of Interest

1.1 General Definition

A conflict of interest exists when a council member's self-interest conflicts with their duties and responsibilities as a council member such that they are unable to fully exercise their duties and responsibilities.

A conflict of interest may involve a self-interest that is financial or non-financial and it may involve an interest of a person to whom the council member is closely related.

A conflict of interest may be actual or potential, and it may be real or perceived. An actual conflict of interest is one that currently exists, but a potential conflict of interest may arise in the reasonably foreseeable future. A real conflict of interest is one that exists, but a perceived conflict of interest is one that is reasonably believed to exist.

Whether a conflict of interest is potential or perceived is determined from the perspective of a reasonable and informed person viewing the matter realistically and practically.

1.2 Exception – Personal Interest in Common with Many Others

It is not a conflict of interest if the self-interest of a council member is one that the council member has in common with many other people.

1.3 Exception – Personal Interest that is Remote or Insignificant

It is not a conflict of interest if the self-interest of a council member is one that is so remote or insignificant that it cannot reasonably be seen as affecting the ability of the council member to carry out their duties and responsibilities as a council member.

Douglas College Education Council Bylaws

2. Procedure for Identifying and Addressing Conflicts of Interest

2.1 Disclosure of Own Conflict of Interest by Council Member

A council member shall disclose their conflict of interest to the chair of the council in writing in advance of a council meeting, or orally at a council meeting if the conflict of interest arises without notice.

A council member shall, whenever possible, disclose their conflict of interest in relation to an issue before the council discusses or otherwise considers that issue.

When a council member has disclosed a conflict of interest in advance of a council meeting, the chair of the council shall notify all other council members of the disclosure prior to that council meeting, or if that is not practicable, prior to council consideration of the matter in which the conflict of interest has been identified.

2.2 Allegation of Conflict of Interest Regarding Another Council Member

If any council member believes that another council member has a conflict of interest, that council member shall identify that alleged conflict of interest to the other council members including the member who is the subject of the allegation.

If any person believes that a council member has a conflict of interest they shall identify that alleged conflict of interest to the chair of the council, or if their belief is that the chair of the council has a conflict of interest, they shall identify that alleged conflict of interest to the vice-chair of the council. The chair, or vice-chair, as the case may be, shall then determine whether to identify this alleged conflict of interest to other council members including the member who is the subject of the allegation.

If the council member who is alleged to be in conflict of interest accepts that they are in conflict of interest, this acceptance shall be taken as equivalent to a disclosure of own conflict of interest as outlined in 2.1.

If there is disagreement by any council member about the existence of the alleged conflict of interest, the council shall hold a vote to resolve the matter. With the council member who is alleged to be in conflict of interest refraining from voting, the council shall determine by majority vote whether a conflict of interest exists.

Douglas College Education Council Bylaws

If a council member is determined by majority vote to be in a conflict of interest, the council member is deemed to be in a conflict of interest.

2.3 Process Following Disclosure or Determination of Conflict of Interest

Following a disclosure of conflict of interest by a council member, or a determination of conflict of interest by a majority vote of the council, the council member who is in conflict of interest must absent themselves from the council meeting during any consideration of the matter to which the conflict of interest relates. "Consideration" includes discussion, debate and voting.
