You are recommended to **apply for your PGWP within 90 days after your completion date while your study permit is still valid**. The reason we recommend this is because you can only submit a PGWP application **inside Canada** if your study permit is still valid. Also, you may work full-time after you submit a PGWP application if you hold a valid SP when you apply for the PGWP and meet [other eligibility requirements](#). Please refer to our FAQs section for more information on the timeline of when you can apply for your PGWP.
