Michelle Hunt
LPN to BSPN Coordinator
Faculty of Health Sciences

For over a decade, I have been a regular faculty member in the Bachelor of Science in Psychiatric Nursing program at Douglas College teaching in various clinical, theory, and laboratory courses. Since September 2023, I have been the LPN to BSPN Coordinator where I led the planning and development of the Licensed Practical Nurse Access to Psychiatric Nursing program at Douglas College. In this role, I liaised with internal and external stakeholders to develop an innovative program for LPNs to upgrade their education while continuing to work in their home communities in British Columbia. Further, I moved the program through the Douglas College Governance process where I gained experience and knowledge in curriculum development, collaborating with different educational committees and departments, and implementing educational policies.

I am pursuing the Faculty of Health Sciences representative position on the Education Council as I have a passion for curriculum development and evaluation, and I am committed to enhancing the quality of education at Douglas College by ensuring that the curriculum remains relevant, inclusive, equitable, and responsive to students' learning needs. I value student-centered learning environments, the integration of inclusive and diverse teaching practices, and the cultivation of safe spaces for all students to learn. I am dedicated to contributing to the curriculum development and evaluation process to ensure excellence in education at Douglas College and being a valuable member of the Education Council.
