

Education Council plays a critical role in shaping curriculum, academic standards, and educational policies that directly affect students. As a student representative, I would use my voice and vote to ensure student perspectives are meaningfully considered in these decisions and that the student experience remains at the centre of conversations about education at Douglas College.

I currently serve as the Director of College Relations for the Douglas Students' Union. In this role, I am responsible for understanding the college's structure, ensuring students are fairly represented within its governance framework and for bringing student concerns forward to decision-makers. Being part of Education Council would allow me to make a real impact in one of the most important decision-making spaces for students.

I believe we, as students, deserve to ask questions and speak up when decisions impact our academic experience. My goal is to strengthen the connection between students and institutional decision-making by bringing forward student feedback, encouraging transparency, and ensuring student voices are heard.
