N: Course Content: The following global ideas guide the design and delivery of this course:

- 1. **Learning from experience is a characteristic of exceptional practitioners. Practicum settings create opportunities for students to refine their skills of reflection and adaptation in response to their practice experience.**
- 2. **Learning in a practicum setting provides opportunities to examine assumptions and biases.**
- 3. **Field settings provide opportunities to synthesize personal and classroom experiences and create openings for new learning. Learners gain both insight and practice knowledge from field experiences.**
- 4. **Observing, participating with, and receiving guidance from experienced practitioners is crucial for effective practice.**
- 5. **Practitioners who regularly and accurately assess their performance and who set goals for their ongoing professional development are more likely to be effective in their work.**
- 6. **A well-developed personal philosophy of practice is a cornerstone of competent human service practice.**
- 7. **Experience in the field settings allows learners to demonstrate and enhance their abilities to problem solve, be flexible, think creatively and take responsibility for their actions.**
- 8. **Reflecting on and evaluating practicum experiences with clients, colleagues and mentors maximizes field based learning experiences.**
