F:	Calendar Description: Canada has developed from being a small number of isolated Maritime settlements into a modern economy enjoying membership in the "G-7", a group of seven industrialized democracies that includes Germany, Japan and the United States. This course examines that progression. Special attention will be paid to the relationship of Canada within the British Empire, theories of Canadian economic development and the role of government legislation since Confederation.

# M: Course Objectives / Learning Outcomes

At the end of the course, the student will be able to:

- 1. Describe the economic development of Canada both before and after Confederation.
- 2. Analyze how economic forces and policies have shaped the development of Canada both before and after Confederation.
- 3. Identify the contributions, and limitations, of economic analysis to broadening our understanding of the process of Canadian economic development.

## N: Course Content:

- 1. An introduction to the economic history of the Maritimes and the rivalries among colonial powers in the North Atlantic region.
- 2. The early staples: The exploitation of renewable natural resources.
- 3. The changing structure of the Canadian economy: The National Policy.
- 4. Land policy and the development of agriculture.
- 5. Banking and capital markets before and after Confederation.
- 6. Capital formation and the industrialization of Canada.
- 7. Transportation and investment in infrastructure.
- 8. Labour and the role of labour organization in the Canadian economy.
- 9. Foreign investment: Its role and impact on the Canadian economy.
- 10. Regional variations in economic development and growth.
- 11. Recent developments in the economic analysis of Canada's historical development.
